PROFESSIONAL SUMMARY

Senior data engineer with 15+ years of progressive technology experience across Canada and Mexico, spanning cloud data platforms, SQL engineering, ETL/ELT, data orchestration, analytics and API development. Hands-on experience with Snowflake, Microsoft Azure, Python, Apache Airflow and Power BI, complemented by recent AI service integration work using Azure OpenAI, FastAPI and Microsoft Agent Framework. Skilled at collaborating with business and technical stakeholders to translate requirements into reliable data solutions.

TECHNICAL SKILLS

Data Engineering: ETL/ELT, data pipeline development, data integration, data warehousing, data modeling, data quality, SQL optimization

Cloud & Data Platforms: Microsoft Azure, Snowflake, Azure Data Factory (ADF), Azure Synapse Analytics, Azure Blob Storage, Azure API Management (APIM)

Programming & APIs: Python, SQL, T-SQL, PL/SQL, C#, REST APIs, FastAPI, ASP.NET MVC

Databases & Reporting: SQL Server, PostgreSQL, MySQL, Oracle, Cosmos DB (MongoDB API), Power BI, SSIS, SSRS

Orchestration, AI & DevOps: Apache Airflow, Azure OpenAI, Microsoft Agent Framework, AI workflow integration, Docker, Git; Databricks/PySpark (integration experience)

PROFESSIONAL EXPERIENCE

Senior Engineer, Data Science | Kitchen Craft of Canada / MasterBrand Cabinets | Jul 2025 – Nov 2026 (scheduled end)

- Develop and maintain Snowflake and Apache Airflow workflows for scheduled ingestion, transformation, data validation and cloud data integration.
- Developed and tracked sales-portal performance indicators to measure customer engagement and guide improvements that increased customer adoption.
- Build and document Azure-hosted AI service integrations using Python, FastAPI, Azure OpenAI and Microsoft Agent Framework, including migration patterns from Prompt Flow.
- Collaborate with data, analytics and AI teams on API integration, deployment across DEV/UAT/PROD and platform architecture.

Azure Data Engineer | Microsoft (contract engagement) / *Jan 2024 – Mar 2025*

- Investigated and resolved integration and reliability issues across Azure Data Factory, Azure Synapse Analytics, Fabric Data Factory and Azure SQL.
- Supported data integration scenarios involving REST APIs and external platforms, including Snowflake, Airflow, Databricks/PySpark and Cognite Data Fusion.

Data Engineer | New Era Technology (formerly Aptude) / *Oct 2021 – Dec 2023*

- Built, supported and tuned SQL Server stored procedures and data workflows; analyzed execution plans to improve database performance.
- Created development and QA database environments using masked test data; participated in Agile development, design reviews and incident resolution.

Senior Database Developer (SQL Server) | AgileThought (formerly 4th Source) / *Aug 2018 – Oct 2021*

- Designed SQL Server ETL/data integration solutions using Talend, SSIS and C#, with TFS/GitHub source control.
- Supported on-premises database migrations, Oracle data warehouse updates, test-data environments and Power BI visualization.

ETL Ab Initio Developer | Softtek / *Dec 2017 – Aug 2018*

- Provided ETL data extraction and reporting solutions for financial institutions; optimized SQL Server and Ab Initio processing.

Full-Stack Developer | Atento Servicios / *Jan 2014 – Dec 2017*

- Developed SQL Server/SSIS workflows, SSRS/SSAS reporting, Power BI dashboards and C#/ASP.NET MVC applications.
- Supported database administration, backups, performance tuning and web application delivery.

IT Manager | Cheil Worldwide / *Jan 2011 – Dec 2013*

- Led IT planning, server monitoring, maintenance and operational policy documentation.

Help Desk Agent | Sanofi / *Jan 2008 – Dec 2010*

- Provided Tier 1 IT and SQL support, managed tickets and documentation, and resolved hardware/software issues.

EDUCATION

Bachelor of Science, Information Technology | Universidad del Valle de México | 2010

LANGUAGES

Spanish (native) | English (professional working proficiency)
